PROJECTS

1. MYWAWA

Project Link: <https://www.mywawa.com/>

Project Deatail: Job Board

Project Language :Next Js

My work

- Led front-end development for a Next.js project, a React-based framework.
- Designed and implemented a visually appealing and intuitive user interface, emphasizing user experience.
- Utilized React components efficiently to ensure modular and maintainable codebase.
- Applied responsive design principles to ensure seamless user interaction across various devices.
- Collaborated closely with UX/UI designers to translate design concepts into functional and aesthetically pleasing UI elements.
- Leveraged Next.js features for optimized performance, including server-side rendering and static site generation.
- Contributed to a dynamic and engaging user experience by implementing client-side routing for smooth navigation.

2. BIOSTAFFIC

Project Link: <https://www.biostaffic.com/>

Project Deatail: Job Board

Project Language :Next Js

My work

- Addressed the unique challenges of creating a UI for a job portal project within the Next.js framework.
- Ensured the UI design focused on clear presentation of job listings, intuitive navigation, and user-friendly filtering options.
- Implemented dynamic components to showcase job details, company profiles, and application processes seamlessly.
- Tackled responsiveness intricacies to adapt the UI to various screen sizes, catering to diverse user devices.
- Collaborated with the backend team to integrate real-time updates, enabling users to receive immediate notifications on job status changes.
- Emphasized accessibility features to ensure an inclusive experience, considering diverse user needs.
- Maintained a balance between aesthetics and functionality, aligning the UI with the project's overall goals and user expectations.

3. LIAMTRA

Project Link: <https://liamtra.com/>

Project Deatail: Travel Booking Platform

Project Language :React Js

My work

Web Designer Intern

August 2020 - January 2021 | Innerwork Solutions pvt lmt

Collaborated within a team for ongoing web design maintenance projects, addressing issues and implementing improvements to ensure a cohesive and visually appealing user interface.

SKILLS
